[BUY NOW](#)

Add Signs & Decals to the yard and windows

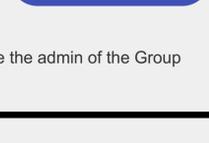

Signs & Stickers come Free with majority of Home Security Systems

SETUP or Join a

Neighborhood Watch Community

- Using Facebook, search for or create a 'Group' with your neighborhood name
- Invite members of the area to join
- Post on Group page anything suspicious in neighborhood.

This is a great, easy & free way to connect to those around you. Make sure the admin of the Group Page keeps it spam free and updated with recent posts. More tips [here](#).

Your Identity

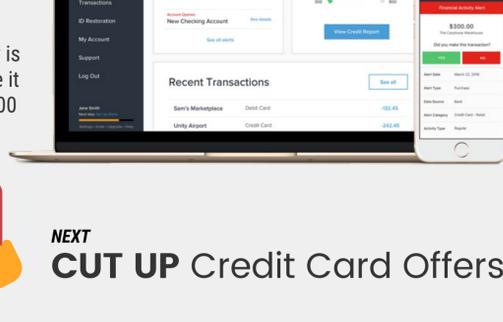

"Identity theft is one of the fastest-growing crimes in the Nations - especially in the suburbs." - Melissa Bean.

HOW TO Protect Yourself

Use an Identity Theft Protect Service such as [LifeLock™](#). It continually detect threats and alerts by phone of suspicious activity.

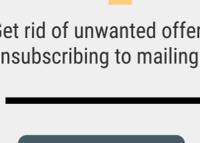

- **RESTORES.** In the event that you become a victim - a Restoration specialist will assist you to fix
- **REIMBURSEMENT.** If money is stolen, LifeLock™ will replace it from \$25,000 up to \$1,000,000 depending upon your plan.

FREE 30 Day Trial

NEXT CUT UP Credit Card Offers

- One of the most common ways of criminals steal identity is by getting their hands on free credit card offers from the mailbox. They then apply for and get a credit card in your name.

Get rid of unwanted offers by unsubscribing to mailing lists.

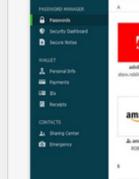

Online Identity

"2,600,000,000 online accounts were breached last year." -Dashlane

- * Increase your password strength
- * Use private browsing and search engines that do not track you
- * Make sure you are protected with anti-virus

USE A Password Manager

Securely store all your passwords across all devices with [Dashlane](#). You can shop safe, store card information and change passwords quickly at anytime.

NEVER Forget another Password

- * **STRENGTH.** Autopopulate and store strong passwords.
- * **ALERTS.** Receive alerts for password breaches.

[FREE Download](#)

USE Private Browsing

In 2017, the Supreme Court passed a law that allows internet providers to sell your browsing history to advertisers. Here are ways to prevent your information from being sold:

- * If using Chrome, Internet Explorer or Firefox - Use 'Private Browsing' or Incognito

- * Use a Virtual Private Network (VPN) such as Surf Easy for the ultimate anonymous internet browsing safety

- * Use new search engines such as [DuckDuckGo](#) which don't track 'cookies' or your browsing data

USE AntiVirus Software

Cyber fraud happens once a virus gets on your computer and they then have access to your passwords & personal information.

- WIFI Protection
- Secure Files & Passwords
- Detects & Kills Viruses

50% OFF
